

Amethyst Hill Nursery

HYDRANGEA-Species & Cultivars

**NOTE—MINIMUM ORDER REQUIRED

Please see inside cover for minimum requirements. For smaller quantities please see Hydrangeas Plus® Catalog.

We are growing over 300 varieties of hydrangeas. Please see listings on following pages for names and descriptions grouped by price. For a color display of most of these varieties please see our website at our mail order site at www.hydrangeasplus.com.

With our permission, our customers may use all pictures and descriptions for their own marketing efforts.

*ARBORESCENS—This is a very hardy family of white hydrangeas. Arborescens is hardy down to **zone 4** and blooms on new wood. They can take full sun in all but the most southern gardens.*

HYDRANGEA ARBORESCENS PRICE GROUP 1

Annabelle—Prolific and large pure white snowball like flower heads, strong stems support traditional flowers. The most reliable performer of all hydrangeas.

HYDRANGEA ARBORESCENS PRICE GROUP 3

Radiata—The underside of the fuzzy leaf is silver, lacecap type bloom, large sprawling habit. Blooms on new wood and will get second bloom with pruning.

Hayes' Starburst—Lacecap, double frilly bloom from Alabama plant collector Jackson Hayes.

Amethyst Hill Nursery

ASPERA—The *aspera* hydrangeas are known for their fuzzy leaves and stems and dome-shaped lacecap bloom. Most are tall and slender growing hydrangeas with sparse leaves that show off the exfoliating bark. Hardy to zone 6 but needs protection in windy locations.

HYDRANGA ASPERA PRICE GROUP 2

Var. *Villosa*—Lacecap type bloom with fluorescent blue flowers

HYDRANEGA ASPERA PRICE GROUP 3

Kawakamii—Slender leaves and large dome shaped bloom

Macrophylla—The pure species, fuzzy leaves and lavender blooms

Mauvette—Like *Sargentiana* but bloom is more spherical and symmetric

Robusta—Extremely fuzzy leaves, pods turning to dome blooms

Rocklin—Dark green slender leaves set off fluorescent purple center

Sargentiana—Large dome-shaped lacecap of pale purple and white.

CLIMBING—This group includes climbing hydrangea and close relatives from all over the world.

HYDRANGEA—Climbing PRICE GROUP 2

Anomala petiolaris—White lacecap bloom, fall color, deciduous, zone 4 rated

HYDRANGEA—Climbing PRICE GROUP 3

Anomala Petiolaris ‘Brookside Littleleaf’—Small leaves, slightly compact

Anomala Petiolaris ‘Firefly’ - Varigated form of climbing hydrangea

Anomala Petiolaris ‘Miranda’—Yellow margins on dark green leaves

Anomala Petiolaris ‘Skyland Giant’ - Big blooms and big leaves

Anomala Petiolaris ‘Tiliifolia’ - Little leaf white fragrant bloomer

Decumariae Barbara Ann— vigorous hydrangea cousin

Intergerimma—Like *Integrifolia* but larger leaves, zone 8

Intergrifolia—Zone 8 evergreen climber with pods to white lace

Quelpartensis—Climbing shrub with small dark green leaves, zone 4

Schizophragma Hydrangeoides ‘Moonlight’—Large white blooms, zn 5

Amethyst Hill Nursery

HYDRANGEA—Climbing PRICE GROUP 3—Continued..

Schizophragma Hydrangeoides ‘Platt Dwarf’ - Small leaf, white bloom

Schizophragma Hydrangeoides ‘Roseum’—Large pale pink bloom, zn 6

Semannii—Zone 8 climber with evergreen thick slender leaves

HIGHLIGHTED VARIETIES PRICE GROUP 2

Ayesha—One of the rare scented varieties. Sterile florets resemble tiny spoons and are pale pink, mauve or light blue. Great glossy green leaves. Zone 6

Japonica Coerulea—Perfect lacecap with fertile center flowers deep blue. The sterile flowers light blue to white. Superior hardiness (zone 5) and early blooms

HIGHLIGHTED VARIETIES PRICE GROUP 3

Dichroa febrifusa—Ancient variety that is evergreen with lavender lacecap type flowers in late spring, blue fruit in the winter, zone 7

Painter’s Palette—Open pollinated seedling from Dr. Dirr breeding program, lovely compact plant with lacecap of white and green that ages pink, zone 6

INVOLUCRATA—Wonderful family of lacecaps that grow 3 to 5 feet high and wide. Characterized by slender and slightly fuzzy leaves and pod-like flower buds, this family is native to Japan and Taiwan. Blooms an extraordinarily long time in mostly shady and zone 7 and higher gardens.

HYDRANGEA INVOLUCRATA PRICE GROUP 3

Involucrata Tama Azisai—Unique! Round pod unfolds to showoff a small lacecap with white and pink flowers. Blooms early and on new wood!

Involucrata Hortensia—Prolific lacy white flowers, compact plant with smoother leaves than other involucrata varieties
